Introduction

Welcome to the New Nokia Documentation Center!

We have redesigned the Documentation Center to improve your access to the Nokia customer documentation. You'll be able to experience a powerful search, direct links to frequently used documents, easy access to your recent searches and your entitlements. Plus, the ability to create your own downloadable collections.

Documentation Center - Authenticated

1. Redesigned Interface
2. Powerful Search
3. Download Collection
4. Share Results
5. Direct Links to Frequently Used Documents
6. Easy Access to Recent Searches, My Entitlements, and Tools
7. Supports Mobile Devices

Redesigned Interface

Portal

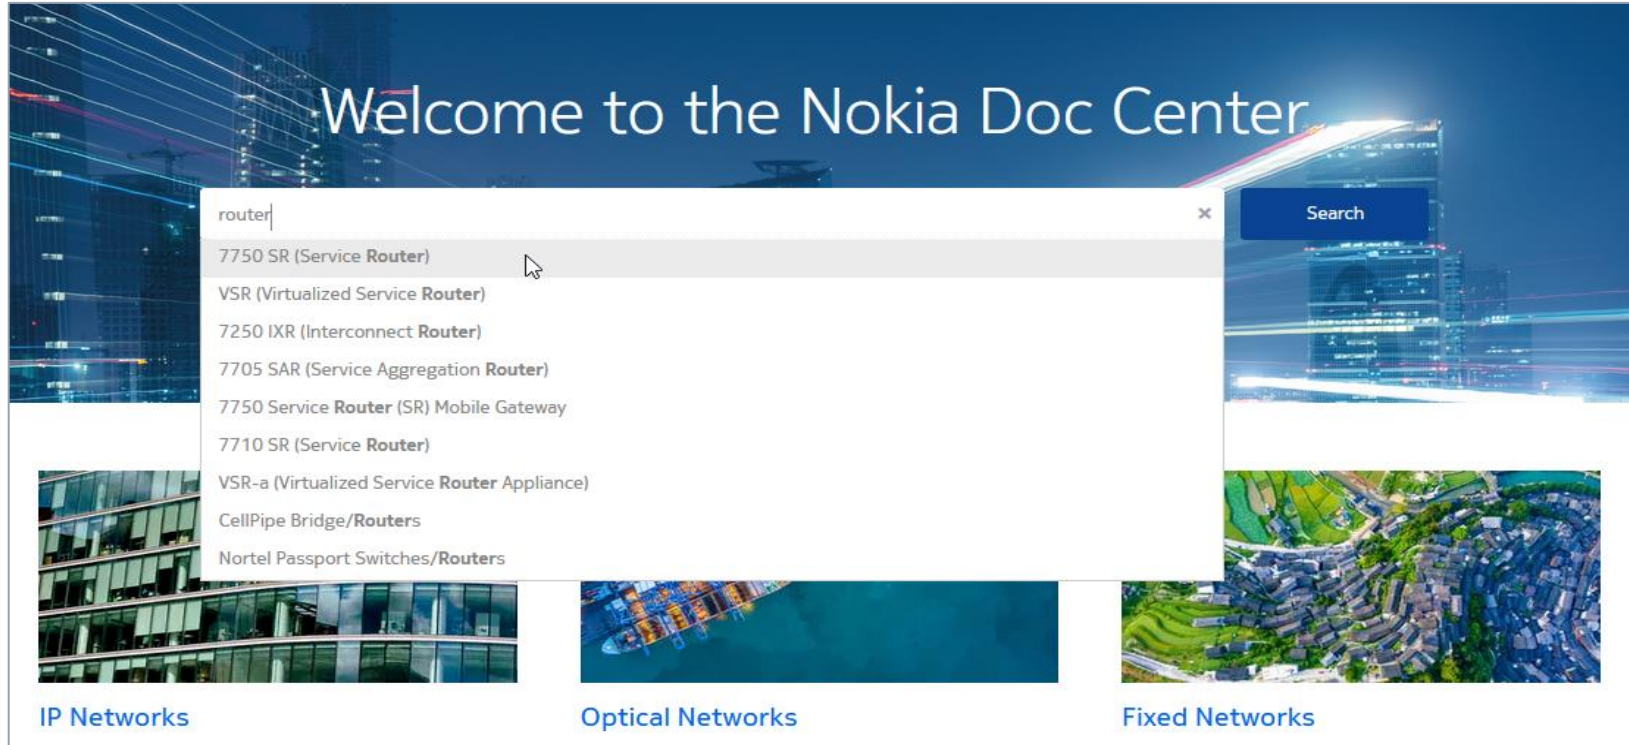

The screenshot shows the Nokia Doc Center Portal homepage. At the top, there is a navigation bar with the Nokia logo, 'Doc Center', and links for 'Recent Searches', 'Tools', and 'All Products'. A large hero banner features a cityscape at night with the text 'Welcome to the Nokia Doc Center'. Below the banner is a search bar with the placeholder text 'Enter a product name, model or search string'. The main content area is divided into six categories, each with a representative image and a label: IP Networks, Optical Networks, Fixed Networks, Cloud Networks, Automation, and Radio Networks. At the bottom, there are three columns of links: 'Useful Sites' (Customer Support Portal, Discovery Center, Documentation Alerts), 'Get Help' (Using the Doc Center, Nokia Support FAQ, Contact Nokia Support), and 'Provide Your Feedback' (On documentation content, On this web page). The footer contains the Nokia logo, links for 'Terms of Use', 'Privacy', 'Cookie Policy', and 'Inclusive terminology', and a copyright notice: '© Nokia 2022 All rights reserved'.

Search Results

The screenshot shows the search results page for '7750 SR (Service Router)'. The navigation bar is identical to the portal page. The hero banner features a search bar and a 'Search' button. The main content area displays the search results for '7750 SR (Service Router)'. It includes a 'Product' section with a dropdown menu showing '7750 SR (Service Router)' and a '2 documents' count. Below this, there are filters for 'Refactor' (set to '22.10'), 'Model' (set to 'All'), 'Category' (set to 'Installation'), 'Content Type' (set to 'All'), and 'Format' (set to 'All'). A 'Clear All' button is located at the bottom of the filters. The search results list shows two documents: 'NESH Installation and User Guide 22.10.R1' and 'Virtualized 7250 DB, 7750 SR and 7950 XRS Simulator (vSRM) Installation and Setup Guide 22.10.R1'. Each result includes the issue date, issue number, document number, and links to 'Open' and 'PDF' versions. The footer is identical to the portal page.

Filter by Release, Model, Category, Content Type, and Format

The screenshot displays a search interface with a header banner featuring a network visualization. Below the banner is a search bar with a 'Search' button. The main content area is divided into two columns. The left column contains a series of filter dropdowns: 'Product' (set to '7750 SR (Service Router)'), 'Release' (set to '22.10'), 'Model' (set to 'SR-OS (Service Router)'), 'Category' (set to 'User Guide'), 'Content Type' (set to 'All'), and 'Format' (set to 'All'). A 'Clear All' button is located at the bottom of the filter column. The right column displays the search results for '7750 SR (Service Router)', showing '3 documents'. Above the document list are links for 'Share Results', 'Download Collection', and a 'Sort By' dropdown set to 'Issue Date'. The document list includes three entries, each with a title, issue date, issue number, document ID, and links to 'Open' and 'PDF' versions.
