Searching for Specific Information in a Downloaded PDF Document or Multiple PDF Documents

You can use Adobe Reader to search the contents of one or more downloaded PDF files for a specific term.

Note: When searching the contents of multiple PDF files, ensure the files are located in the same folder.

- From the Adobe Reader main menu, choose **Edit > Search or Advanced Search**. The Search panel opens.
 - To search for a specific term in the current document, click the **In the current document** radio button.
 - To search for a specific term in multiple documents, click the **All PDF Documents in** radio button and select the applicable folder from the drop-down menu.
- Enter the term to search for. Select one or more of the following search criteria, if required:
 - Whole words only
 - Case-Sensitive
 - Include Bookmarks
 - Include Comments
- Click the **Search** button. Adobe Reader displays the search results. You can expand the entries for each file by clicking on the + symbol.
