## Threat Management Service Command Reference

- [Card Commands on page 1037](#)
- [MDA Commands on page 1037](#)
- [TMS Commands on page 1037](#)
- [Policy Commands on page 1038](#)

### Card Commands

```

config
  — card slot-number
      — mda mda-slot
          — mda-type isa-tms

```

### MDA Commands

```

config
  — card slot-number
      — mda mda-slot

```

### TMS Commands

```

config
  — service
      — ies service-id [customer customer-id]
      — no ies service-id
          — tms-interface interface-name [create] [off-ramp-vprn off-ramp-svc] [mgmt-vprn
            mgmt-svc]
          — no tms-interface interface-name
              — address {ip-address/mask|ip-address netmask}
              — no address
              — description long-description-string
              — no description
              — [no] ipv6
              — password [password]
              — no password
              — port mda-id
              — no port
              — [no] shutdown
      — vprn router-instance
          — tms-interface interface-name [create] [off-ramp-vprn off-ramp-svc] [mgmt-vprn
            mgmt-svc]
              — address {ip-address/mask|ip-address netmask}
              — no address
              — description long-description-string
              — no description

```

- [no] **ipv6**
- **password** [*password*]
- **no password**
- **port** *mda-id*
- **no port**
- [no] **shutdown**

## Policy Commands

- config**
  - **router**
    - **policy-option**
      - **policy-statement**
        - **entry**
          - **from**
            - **protocol**
            - **tms**

## Show Commands

- show**
  - **filter ip**
    - **ip**
  - **port** *slot/mda/2* (**offramp port**)
  - **port** *slot/mda/3* (**onramp port**)
  - **router**
    - **interface** *tms-interface-name* [**detail**]
    - **tms routes** [**tms-interface** *interface-name*] [**family**] [**active|inactive**]
    - **protocol tms**
    - **route-table** **summary**
