### 3.3 Release notes

The *SR OS R26.x.Rx Software Release Notes* are not included with the 7705 SAR Gen 2 software documentation package. See [Accessing documentation](#) for information about accessing release notes.

The Nokia customer documentation team has introduced the RN Navigator – an online tool for quickly finding information in SR OS Release Notes – starting from Release 20. The RN Navigator can be accessed online at <https://documentation.nokia.com/sr/RN-Navigator/>. A customer account login is required.

## 4 Accessing documentation

Nokia customer documentation can be accessed through [WebHelp](#) or through the [Nokia Documentation Center](#).

Most 7705 SAR Gen 2 software user guides described in this guide are publicly available (no authentication is required). The hardware guides, release notes, and some technical documents are restricted (authentication is required).

The software user guides for the 7705 SAR Gen 2 can be accessed using a search engine. For best results, search using the term "7705 SAR Gen 2" followed by the current release and any applicable keywords. Because the hardware guides are restricted, they cannot be accessed using a search engine.

**Note:** Depending on your account permissions and login status, you may not be authorized to display or download restricted guides (indicated by a lock or key symbol). If the guide remains restricted after a valid login, contact a Nokia technical support representative to check your account permissions.

The 7705 SAR Gen 2 documentation is available in the following formats:

- WebHelp HTML
- downloadable HTML library (WebHelp format)
- PDFs of each guide
- a zip file of all PDFs in the documentation suite

## 5 Technical support

Customer support representatives are available to assist you 24 hours a day, 7 days a week. To contact Technical Support, visit the Nokia Support portal: <https://customer.nokia.com/support/s/>.
