Accessing documentation

Nokia customer documentation can be accessed through:

- [WebHelp](#)
- [Nokia Documentation Center](#)

The 7705 SAR software user guides are available in PDF and HTML format. The hardware guides, software release notes, and quick reference cards are available in PDF format only.

The software user guides are publicly available (no authentication is required). The hardware guides, release notes, and some quick reference cards are restricted (authentication is required).

The software user guides can be accessed using a Google search. For best results, search using the term “7705 SAR” followed by the current release and any applicable keywords. Because the hardware guides are restricted, they cannot be accessed using a Google search.

Note: Depending on your account permissions and login status, you may not be authorized to display or download restricted guides (indicated by a key symbol beside the document ID). If the guide remains restricted after a valid login, contact a Nokia technical support representative to check your account permissions.

The 7705 SAR documentation is available in the following formats:

- PDF
- zipped PDF library
- WebHelp HTML
- downloadable HTML library (WebHelp format)
