2 7210 SAS documentation suite

The 7210 SAS documentation suite covers the software and hardware features and functionality of the 7210 SAS platforms. The documentation suite describes topics such as configuration guidelines, services, routing protocols, troubleshooting methods, and chassis and card installation.

2.1 Software guides

The software guides are organized into functional chapters and provide information about the implementation flow, as well as Command Line Interface (CLI) syntax and command usage.

Intended audience legend:

- A – network architects and designers
- B – installers and hardware maintenance technicians
- C – network technicians, administrators, operators, and service providers

The following table describes the software guides in this documentation suite and the intended audience for each guide.

2.3 Release notes

The 7210 SAS Software Release Notes are not included with the 7210 SAS software documentation package. See [Accessing documentation](#) for information about accessing release notes.

The Nokia customer documentation team has introduced the RN Navigator – an online tool for quickly finding information in the 7210 SAS Release Notes – starting from Release 20. The RN Navigator can be accessed online from your product WebHelp or <https://documentation.nokia.com/rn-navigator/products/>. A customer account login is required.

3 Accessing documentation

Nokia customer documentation can be accessed through the [WebHelp](#) or through the [Nokia Documentation Center](#).

The 7210 SAS software user guides are publicly available (no authentication is required). The hardware guides, software release notes, and some technical documents are restricted (authentication is required).

The 7210 SAS software user guides can be accessed using a search engine. For best results, search using the term "7210 SAS" followed by the current release and any applicable keywords. The restricted guides cannot be accessed using a search engine.

Note: Depending on your account permissions and login status, you may not be authorized to display or download restricted guides (indicated by a lock or key symbol). If the guide remains restricted after a valid login, contact a Nokia technical support representative to check your account permissions.

The 7210 SAS documentation is available in the following formats:

- WebHelp HTML
- downloadable HTML library (WebHelp format)
- PDFs of each guide
- a zip file of all PDFs in the documentation suite

4 Technical support

Customer support representatives are available to assist you 24 hours a day, 7 days a week. To contact Technical Support, visit the Nokia Support portal: <https://customer.nokia.com/support/s/>.

5 How to give feedback on documentation

You can use the following methods to report issues with the documentation, including errors or areas that need clarification, or to provide suggestions for improvement:

- **email**

Send your feedback in an email to documentation.feedback@nokia.com. Include the guide name, topic, and release.

- **online WebHelp**

In the online Webhelp click the email feedback icon next to the topic title. Use the pop-up email to provide your comments about the topic.
