The Nokia customer documentation team has introduced the RN Navigator – an online tool for quickly finding information in SR OS Release Notes – starting from Release 20. The RN Navigator can be accessed online at <https://documentation.nokia.com/sr/RN-Navigator/>. A customer account login is required.

4 Accessing documentation

Nokia customer documentation can be accessed through [WebHelp](#) or through the [Nokia Documentation Center](#).

The latest versions of the 7750 SR hardware guides are available on the [7750 SR Hardware Documentation Hub](#) in WebHelp HTML format.

Most SR OS software user guides described in this guide are publicly available (no authentication is required). The hardware guides, release notes, and some technical documents are restricted (authentication is required).

The SR OS software user guides for the 7450 ESS, 7750 SR, 7950 XRS, and VSR can be accessed using a search engine. For best results, search using the term "SR OS" followed by the current release and any applicable keywords. Because the hardware guides are restricted, they cannot be accessed using a search engine.

Note: Depending on your account permissions and login status, you may not be authorized to display or download restricted guides (indicated by a lock or key symbol). If the guide remains restricted after a valid login, contact a Nokia technical support representative to check your account permissions.

The SR OS documentation is available in the following formats:

- WebHelp HTML
- downloadable HTML library (WebHelp format)
- PDFs of each guide
- a zip file of all PDFs in the documentation suite

5 Technical support

Customer support representatives are available to assist you 24 hours a day, 7 days a week. To contact Technical Support, visit the Nokia Support portal: <https://customer.nokia.com/support/s/>.

6 How to give feedback on documentation

You can use the following methods to report issues with the documentation, including errors or areas that need clarification, or to provide suggestions for improvement:

- **email**
Send your feedback in an email to documentation.feedback@nokia.com. Include the guide name, topic, and release.
- **online WebHelp**
